Summary

I studied at IT STEP Rivne in speciality "Software engineering" from 2018 till 2021. Now I study at National University of Water and Environmental Engineering in the faculty "Software engineering".
Some about me: I am usually emotional and active person. My life is diverse. I like to laugh and joke. I'm hard-working and ambitious. I set high goals for myself and I work hard to reach them. I'm sociable, so I have got a lot of friends and familiar people. My hobbies are reading books, listening music, spending my free time active with my friends and relatives, doing some sport exercises and learn something new for myself. Plus for it, I like programming different sites and program. Also, I like to study something new in this sphere. So, more about me you can find out during our cooperation.
